

*Le Nouveau Chef*

EST. 1986

ESSENTIAL COLLECTION — 001

*The Chef's Choice*

Worn by the best chefs *all over the world*

A warm welcome

Almost forty years ago, Le Nouveau Chef began as a family-run business, driven by a passion for excellence and attention to detail. Today, we are grateful for the journey that has shaped us into a trusted name across Europe and beyond. Our commitment to blending timeless style, unmatched comfort, and functionality has resonated with chefs and hospitality professionals worldwide.

For us, these relationships extend beyond business. Many of our partners have become cherished members of our ever-expanding community. At Le Nouveau Chef, we treasure these genuine connections and the shared values they embody. Staying true to our roots, we honour the community spirit that has defined our journey and celebrate the authentic bonds that continue to inspire us.

We are honoured to welcome you as part of this legacy—your story becomes part of ours as we grow, innovate, and succeed together.

# B Corp Certified

Le Nouveau Chef is officially a certified B Corp, meaning we meet high standards in environmental and social impact, transparency, fair trade, and responsible entrepreneurship. In all these areas, we aimed for the highest possible standards. We scored above average on all five sustainability criteria, both nationally and across our sector. We are proud to be part of a global community of businesses dedicated to creating a positive impact for people, communities, and the planet.

**Project Redefined** — a series of initiatives dedicated to further minimizing our environmental footprint.

By experimenting with small-scale projects, we can discover impactful improvements. With this project, we aim to reassess and reshape our approach—from production and packaging to design and transport—with the goal of reducing our ecological footprint. We want to give you an honest look into our kitchen and show you what it takes to achieve real change.

- **111.1**  
Overall B Impact Score
- **80**  
Qualifies for B Corp Certification
- **50.9**  
Median Score for Ordinary Businesses

## Produced in Europe

All of our chef clothing and catering uniforms are manufactured in Europe, ensuring compliance with European labour laws, including fair wages and safe working conditions. We visit our production facilities on a regular basis to verify that conditions meet the required standards for workers' welfare. Manufacturing within Europe also reduces emissions associated with long-distance transportation.

## High-Performance materials

We source high-performance materials, such as recycled fibres and organic cotton. Designed for heavy use, our fabrics are carefully selected for their proven ability to withstand frequent washing and the high temperatures of professional kitchen environments. To extend the lifespan of the garments and reduce the frequency of replacement, we recommend following the care instructions we provide.

## Timeless designs

Our collection is designed to be mixed and matched, allowing each crew member to show their personal style while still looking unified as a team. With a consistent colour palette and a focus on timeless designs, our clothing is made to last beyond seasonal trends.

## The Undyed Collection

Our iconic products, crafted from undyed rPET and low-impact cotton fabric, challenge the tradition of pure white chef jackets. By reducing bleaching and optical whiteners while maintaining exceptional quality, we lessen environmental strain and take a stand for sustainability.

In the culinary world, pure white chef jackets are the standard—but they come at a cost. Bleaching and chemical whiteners harm the environment. With The Undyed Collection, we invite chefs to rethink tradition and embrace a cleaner, more sustainable alternative.

This is more than a jacket. It's a statement—a commitment to leading not just in the kitchen, but in sustainability. Stand with us in shaping a more responsible future for our industry.

Read the full story and explore our product testing at [LeNouveauChef.com](https://LeNouveauChef.com).

# Made for everyday use

We work closely with European fabric suppliers to ensure our materials meet the highest standards of quality and compliance. Through these collaborations, we create strong, high-performance garments that are lightweight, breathable, and thoroughly tested for durability and reliability—perfect for professional kitchens.

Our clothing is designed with the user in mind. Quick-drying, easy to iron, and industrially washable, it combines exceptional comfort with practicality. Features like EOL stretch fibers, specifically developed for professional use, provide flexibility and freedom of movement, making our garments ideal for demanding tasks. Every material and supplier is carefully selected to meet the high expectations of our customers. From durable fabrics to premium trims such as YKK zippers and snap buttons, every detail is crafted for long-lasting performance.

At the heart of everything we do is a commitment to innovation. We are constantly improving our materials and designs to ensure they last longer, perform better, and exceed the standards our customers rely on.

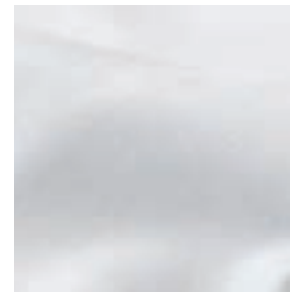

## Organic & Fairtrade Cotton

Our certified organic cotton is grown without harmful chemicals, promoting healthy ecosystems through responsible farming. Fairtrade cotton supports farmers with fair pricing and ethical practices, creating positive social and environmental impacts. We're increasing the use of organic and Fairtrade cotton and moving away from conventional cotton.

## Recycled PET-Polyester

We use Repreve, recycled polyester made from plastic bottles. This prevents plastic pollution by diverting waste from landfills and oceans. Repreve offers the same high-quality performance as virgin polyester—durability, moisture management, and wrinkle resistance—while having a smaller environmental footprint. Our recycled polyester is from certified, traceable sources.

## Tencel

TENCEL® is a sustainable produced fibre made of Eucalyptus wood which is extracted from responsible managed forests with official FSC certification. The solvent used during the production of TENCEL® is recycled by almost 100%. TENCEL® received the 'European award for Environment' from the European Union for their unique production process.

## Linen

Our linen, produced and sourced in Europe, comes from the flax plant, which requires less water and fewer chemicals than cotton. This natural fiber absorbs moisture well, maintains temperature, and is perfect for busy kitchens. Linen is strong, feels premium with its texture, resists excessive wrinkling when properly treated, and is biodegradable.

## Essential Collection *for men*

Essentials are the core of our collection – basic, functional, unisex and always available. Designed for everyday use, it offers comfort and reliability. Reflecting our design philosophy, the Essential Collection features clean, modern designs with a strong focus on performance and comfort. Essentials are timeless and stay in stock year-round, ensuring you can always count on your go-to items.

**Size range**  
XXS-6XL

The successor and optimized version of Le Nouveau Chef's first chef jacket and starting model, Chef Jacket Dave is based on the classic Hilton crossover style. This contemporary version includes a hidden inner pocket for a phone and is available in various colors. Made from fabric with mechanical stretch, Chef Jacket Dave comes in a wide range of sizes and pairs perfectly with the women's Chef Jacket Lynn.

Our iconic products in undyed fabric. This collection marks the beginning of Project Redefined — a series of initiatives dedicated to further minimizing our environmental footprint. With fewer optical brighteners and made from 65% rPET and 35% lower impact cotton (compared to conventional cotton), this collection helps reduce our impact.

Service Shirt Lucas is designed specifically for service staff, reflecting the quality and professionalism they bring to the dining experience. Made with innovative stretch fabric for ultimate comfort and freedom of movement, it boosts confidence while maintaining a polished appearance. A perfect match with Blouse Lisa for a cohesive team look.

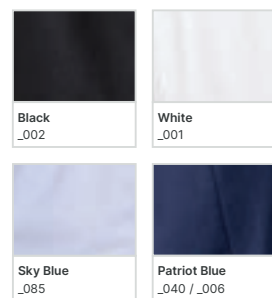

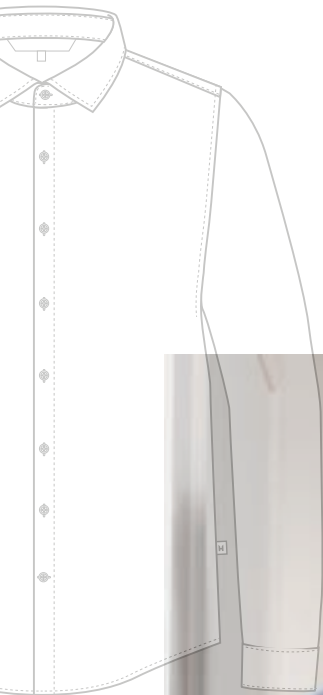

## Mix & Match

Could be paired with Apron Nicolas Black.

Apron Nicolas

Service Shirt Liam is thoughtfully designed for service staff, combining style and functionality. Made with innovative, moisture-regulating fabric, it ensures comfort without visible sweat marks or clinging to the body. The slim-fit design with stretch provides maximum freedom of movement and a polished look. A perfect match with Blouse Demy.
